ABOUT US

Who We Are

Manufacturing & Solutions Partner — Not a Trading Company

Yakeen Lighting is a manufacturing solutions provider with integrated factory networks, in-house quality control, OEM/ODM customization capabilities, and a full certification system. We don't just sell products — we manufacture, customize, and deliver complete lighting solutions built for the Middle East market.

Manufacturing Capability

Partnered factory network with production lines for indoor, industrial, and outdoor LED lighting. Flexible capacity from samples to bulk orders.

Quality Control System

In-house QC team overseeing raw material inspection, in-process testing, and pre-shipment verification. Every batch tested before delivery.

OEM / ODM Customization

From logo printing and custom packaging to full product re-design and new mold development. DEM/DOM customization welcome.

Full Certification System

CE, RoHS, SASO, CB certifications across product lines. Documentation support for Middle East customs clearance and market access.

Middle East Expertise

All products engineered for 50°C+ heat, sandstorm resistance, and UV durability. Wide voltage AC100-277V for regional grid stability.

Long-term Partnership

3-5 year warranty, dedicated technical support, and after-sales service. We build relationships, not one-time transactions.

Yakeen Lighting specializes in premium LED lighting **manufacturing and solutions** for the Middle East market. With integrated production capabilities, strict quality control, and deep expertise in Middle East environmental requirements, we deliver lighting products that perform reliably in **high-temperature, high-dust, high-UV conditions**. From product customization to certification support, we are your **complete lighting solutions partner** — not just a supplier.

CORE CAPABILITY

OEM / ODM Customization Experts

The products in this catalog are just a partial showcase. We manufacture a far wider range of LED lighting products — and virtually everything is customizable to your specifications. **If you can describe it, we can build it.**

BRANDING & PACKAGING

Logo printing, custom color boxes, product labels, user manuals in your language. Full DEM/DOM service from small to large runs.

PRODUCT MODIFICATION

Adjust power, CCT, beam angle, CRI, finish color, housing design. Modify existing models to match your project requirements.

NEW MOLD DEVELOPMENT

Custom housing design, new product development from concept to mass production. Our engineers work with you end-to-end.

FULL SOLUTION BUILD

Smart control integration (DALI, 0-10V, Zigbee, Tuya), custom driver specs, project-specific photometric design. Complete solutions.

Don't see what you need? These 10 products are just the beginning — contact us with your requirements and we'll build it for you.
